ACKNOWLEDGEMENT

ACKNOWLEDGEMENT

First of all I express our heartfelt thanks to **ALMIGHTY GOD** for blessings of complete my work successfully.

I take immense pleasure in expressing my heartfelt gratitude to **ST. MARY'S CHURCH, THURUTHIPLY** for providing abundant facilities to successfully complete the course.

I record our sincere gratitude to **Dr. SURESH A**, respected Principal, St. Mary's College of Commerce and Management Studies, Thuruthiply for providing abundant facilities to carry out my main project worksuccessfully.

I wish to express our thanks to **Mrs. JISHA JOHN**, Head of the Department Computer Science, to give a moral support and guidance to complete the work.

I take this golden opportunity to express our deep sense of gratitude and heartfelt thanks to our guide **Mrs. PRINCY JOHN**, Assistant Professor, Department of Computer Science for exemplary guidance, valuable suggestions, and constant encouragement for the successful completion of the main project.

I wish to extend our thanks to all teaching and non-teaching faculties of the St. Mary's College of Commerce and Management Studies, Thuruthiply for timely help at every stage of my main project.

I express our heartfelt gratefulness and special thanks to our families who have acted as a backbone throughout the main project.

ABSTRACT

ABSTRACT

E-VACCINATION

The "E-VACCINATION" project is an online healthcare application designed to streamline the management and accessibility of patient health details for doctors and hospitals. Hospitals can input and retrieve comprehensive patient information, including allergies, heart conditions, prior surgeries, and medication history. This facilitates efficient treatment procedures, enabling doctors to quickly access crucial data during consultations or emergencies.

Patients can easily register on the platform. The project's scope aims at providing a user-friendly working environment, enhancing efficiency, and generating valuable outputs. By creating a centralized hub for healthcare information, "E-VACCINATION" contributes to a more integrated and effective healthcare ecosystem, ultimately improving patient care outcomes.
